About me

BCA student with a keen interest in leveraging technology to solve real-world problems. I'm driven by a strong desire to delve into the dynamic world of technology and its applications across various domains.

Beyond academics, I actively seek opportunities to apply my knowledge in practical settings. I'm constantly striving to expand my skill set and contribute meaningfully to the tech community

Projects

Online Temple management system

Online Temple Management System is software which is helpful for temple administrator and devotees. In the current system all the activities are done manually. Our Online Temple Management System deals with the various activities related to the temple and devotees.
